SKILLS

Business Analysis: Requirements Gathering, Stakeholder Communication, KPI Reporting, Data-Driven Decision Making, Problem Structuring
Data & Tools: SQL, Power BI, Excel, Python, Pandas, NumPy, Matplotlib, Seaborn, Java
Collaboration: Cross-Functional Teamwork, Analytical Thinking, Clear Communication, Trust Building with Stakeholders

PROJECTS

DocSensei – AI Document Q&A System | [Github](#) Jul' 26
LangChain, Streamlit, Python, ChromaDB

- Designed an AI-powered document Q&A system to automate information retrieval and reduce manual research time.
- Implemented Retrieval-Augmented Generation (RAG) for semantic search over PDF and DOCX files, improving accuracy of retrieved insights.
- Applied a structured, problem-solving approach to convert ambiguous user queries into precise, actionable answers.

Indian Export Analytics Dashboard | [Github](#) May' 26
Python, Power BI, Pandas, Excel

- Analyzed five years (FY2021–FY2025) of Indian export data to identify trends and growth patterns, translating raw data into actionable insights for stakeholder decision-making.
- Built an interactive Power BI dashboard featuring KPIs, CAGR, and commodity- and country-wise breakdowns, enabling faster, data-driven business decisions.
- Applied structured, analytical thinking to bring clarity to a large, ambiguous dataset, presenting findings in a clear and accessible format for non-technical stakeholders.

Heart Disease Data Analysis | [Github](#) Dec' 24
Python, Power BI

- Performed end-to-end data cleaning and exploratory data analysis to uncover key patterns and risk factors within a healthcare dataset.
- Designed a Power BI dashboard to communicate insights clearly to non-technical audiences, supporting evidence-based decision-making.
- Collaborated with peers to validate findings, strengthening attention to detail and ability to interpret data within a real-world context.

TRAINING

LLMs and AI Agents | [Link](#) Jul' 26

- Completed hands-on training on Large Language Models (LLMs) and AI Agents, covering prompt engineering, agentic workflows, and practical applications of AI-driven automation for business problem-solving.

Deloitte Data Analytics Job Simulation | [Forage](#) | [Link](#) May' 25

- Completed a simulated real-world data analytics engagement, practicing structured problem-solving, stakeholder communication, and translating data into clear business recommendations.

CERTIFICATES

Basic to Beyond Python | [Link](#) Jan' 25
Data Management (Excel & Tableau) | [Link](#) Mar' 25
Microsoft Learn CODE STORM Hackathon | [Link](#) Mar' 25
Advanced Diploma in Innovations and Digital Transformation | [Link](#) Sep' 24

ACHIEVEMENTS

First Place – IDEATHON, Kerala Startup Mission | [Link](#) Nov' 22

EDUCATION

Lovely Professional University Punjab, India
B.Tech CSE (Honours in Data Science & Data Engineering) Jun' 24 – Present
CGPA: 7.89/10

Sree Narayana Central School (CBSE) Kerala, India
Class XII Apr' 22 – Jun' 23
Percentage: 81%
